GENERAL INFORMATION AND REGULATIONS

Every student of this faculty is also bound by Nelson Mandela University's regulations as contained in the General Prospectus. The Dean of the Faculty will take disciplinary action in the event of contravention of departmental and general regulations. **It is the responsibility of every student to acquaint him/herself with the contents of the General Prospectus.** Senate may, with the approval of council, determine the minimum number of new students who must register for a programme/module for it to be offered.

GENERAL ADMISSION REQUIREMENTS (UNDERGRADUATE)

The admissions requirements for undergraduate programmes offered by Nelson Mandela University consist of:
- the statutory minimum requirements based on the National Senior Certificate (NSC), or equivalent school-leaving certificate;
- the Applicant Score (AS), a composite score based on school subject achievement; and
- specific school subject and other requirements (e.g., departmental selection, portfolios, interviews)

These requirements are relevant for the following local and international qualifications: NSC, Senior Certificate, Cambridge qualifications, International Baccalaureate, Namibian and Kenyan Senior Secondary Certificates, and the NC(V) 4.

NSC MINIMUM STATUTORY ENTRY REQUIREMENT
Qualification Minimum Statutory Entry Requirement:
Currently the statutory requirement for admission to a higher certificate, diploma or degree programme is a National Senior Certificate with the appropriate endorsement as well as the minimum language of learning and teaching requirement of the Higher Education Institution.

Qualification	Minimum Statutory entry requirement
Higher Certificate	Pass the NSC, with a minimum of 30% in the language of learning and teaching of the higher education institution, together with any other university requirements.
Diploma	Pass the NSC with a minimum of 30% in the language of learning and teaching of the higher education institution, coupled with an achievement rating of 3 (40–49%) or better in four recognised NSC 20-credit subjects, together with any other university requirements
Bachelor's Degree	Pass the NSC with a minimum of 30% in the language of learning and teaching of the higher education institution, coupled with an achievement rating of 4 (50–59%) or better in four NSC 20-credit subjects together with any other university requirements.

NC(V)4 applicants must meet the minimum requirements for higher certificate, diploma or degree entry as well as the AS and subject admission requirements.

Applicants with **alternate**, **international** or **foreign** qualifications must satisfy the requirements laid down by the Matriculation Board to qualify for a certificate of exemption for a particular alternate, international or foreign school-leaving qualification. These requirements are contained in Government Gazette No. 31674, 5 December 2008 and can be found on the HESA website http://www.hesa-enrol.ac.za/mb/forpres.htm. Applications for such certificates must be made to the Matriculation board directly: https://mb.usaf.ac.za/

THE APPLICANT SCORE (AS)
For *NSC applicants* with **seven** Grade 12 subjects, the AS is calculated by adding the percentages for the six 20-credit subjects (**Note** that the Life Orientation percentage is not included as it is a 10-credit subject). This gives a score out of 600.

For those applicants taking **eight or more** subjects the AS is calculated as follows:
* add the percentages obtained for the three compulsory / fundamental subjects (the two languages and Mathematics Technical Mathematics or Mathematical Literacy),
* plus the percentage(s) for any subject(s) required by the programme,
* together with the percentage(s) for the next best / highest subject(s), to a maximum of six subjects.

For those applicants from Quintile 1 to 3 schools who attain 50% or higher for Life Orientation, 7 points are added to their score out of 600 to arrive at their final AS.

The table below provides an example of how to calculate the AS for:
* **Applicant 1** has 7 NSC Grade 12 subjects and is applying for a programme with Life Science and Physical Science as required subjects; and
* **Applicant 2** who is applying for the same programme, but who took 8 subjects in Grade 12.
* **Applicant 3** who is applying for the same programme, but who is from a Quintile 1 school.

NSC Subject	Applicant 1		Applicant 2		Applicant 3 from Quintile 1 school

APPLICANT SCORE (AS)		370		375		377

For *South African and International applicants with International, NC(V) 4 or Foreign School-Leaving certificates*, use the table below to calculate an equivalent Applicant Score (AS) for admission, based on percentages obtained in such certificates.

Applicants will have to comply with the minimum Applicant Score (AS) set for the Undergraduate qualification they wish to apply for, as well as meet any other additional subject requirements directly.

The Applicant Score (AS) uses the symbols/achievement rating/percentages obtained in an applicant's school-leaving examinations in order to convert them to an equivalent achievement standard on the National Senior Certificate (NSC). The AS is calculated using six subjects, which must include the language(s), and subject requirements for admission, but excluding Life Orientation.

SCHOOL SUBJECT AND OTHER REQUIREMENTS

The Undergraduate Programmes General Information & Admissions Requirements Guide, University website or Faculty Prospectus provides information on the required subjects and what the minimum AS required for admission is for each undergraduate programme offered by Nelson Mandela University

Candidates who satisfy the minimum requirements and who apply online before the official early closing date (August 3) are given preference.

Applications will be considered until the 30th of September.

Applicants who apply in January will have to apply through Central Application Service Hub (CASH).

Final acceptance is based on official final school-leaving results. Applicants currently at school receive provisional, subject to submission of final results.

NATIONAL BENCHMARK TEST (NBT)

Generally, most programmes offered at the Nelson Mandela University do not require applicants to write the National Benchmark Test (NBT). However, there are a very small number of qualifications which require NBT results. If under the requirements of the programme you are interested in, states that NBT results are required, please consult the NBT website (https://www.nbt.ac.za) to book a test date. Applicants interested in programmes requiring NBT results are encouraged to book and write these tests as early as possible. A reference letter from the University is not required.

GENERAL ADMISSION REQUIREMENTS (POSTGRADUATE)

LEVELS AND TYPES OF POSTGRADUATE STUDY
Postgraduate qualifications are structured as follows:
- Postgraduate certificate or diploma
- Bachelor honours degree
- Master's degree
- Doctoral degree

A **postgraduate certificate or diploma** provides an opportunity to undertake advanced study that will strengthen and deepen your knowledge in a particular discipline or profession. Completion of the qualification gives graduates access to a related master's degree programme. The programmes consist mainly of coursework modules and may include conducting and reporting research under supervision. Duration of study: one year full-time

The bachelor **honours degree** is the initial postgraduate specialisation qualification, preparing students for research-based postgraduate study. This qualification typically follows a bachelor's degree, and serves to consolidate and deepen the student's experience in a particular discipline, and to develop research capacity in the methodology and techniques of that discipline. It demands a high level of theoretical engagement and intellectual independence. In some cases a bachelor honours degree carries recognition by an appropriate professional or statuary body. Bachelor honours degree programmes usually include conducting and reporting research under supervision, in a manner that is appropriate to the discipline or field of study. Not all honours programmes at Nelson Mandela University involve conducting research, but all of them include a research methodology course as part of the coursework component. Completion of a bachelor honours degree meets the minimum entry requirement of admission to a cognate Master's degree. Entry into a master's degree programme is usually in the area of specialisation of the bachelor honours degree. A qualification may not be awarded for early exit from a bachelor honours degree. Bachelor honours programmes usually take one year of full-time study.

A **master's degree** may be earned in one of two ways: (i) by completing a single advanced research project, culminating in the production and acceptance of a dissertation, or (ii) by successfully completing a coursework programme and a smaller applied research component. The admission requirement is a relevant honours degree. Professional or advanced career- focused bachelor's degrees, such as BEng, BPharm, BCur, BPsych and BTech, may also be recognised as the minimum entry requirement to a related master's degree programme. Duration of study: Coursework master's degree: one year full- time. Research master's degree: one year to 4 years.

A **doctoral degree** requires a candidate to undertake research at the most advanced academic level, culminating in the production of a thesis. The research outcome has to make a significant and original academic contribution to a discipline or field. The degree may be earned through pure discipline based on multi- disciplinary or applied research. The degree may include a coursework component as preparation to the research, but does not contribute to the credit value of the qualification. Duration of study: 2 to 6 years

RE-ADMISSION REQUIREMENTS FOR UNDERGRADUATE PROGRAMMES

The purpose of Policy on Academic Progression and Readmission to Undergraduate Programmes is to indicate both the process by which Senate determines readmission requirements and who has the authority to refuse readmission to a student who fails to satisfy such minimum requirements for admission.

The policy furthermore addresses the importance of reviewing student progress, where a student can obtain information on readmission requirements, the support afforded to students with conditional readmission, and the process to be followed to appeal a readmission refusal decision.

Nelson Mandela University upholds academic excellence in its endeavour to equip students with transformative and sustainable graduate attributes. Among the principles underpinning learning at the University is that lecturers have high expectations that students will succeed in their studies. Academic progression can be viewed as persistence and motivation to achieve a mark of 50% or more in the modules enrolled for. It is the responsibility of lecturers, professional academic support staff, and students to co-create learning experiences that promote excellence and foster student success.

Furthermore, in accordance with sound educational practices related to enhancing academic success, procedures need to be in place to regularly review the academic progress of students. Monitoring students' academic performance, psycho-social status and possible aggravating factors on an ongoing basis is a key strategy to enhance student success and throughput.
Each Faculty Board must thus approve a process to review the performance of students at a module and/or programme level in their Faculty, submit the process to the Learning and Teaching Committee for approval, and monitor the implementation of the review process.
Minimum requirements for readmission must be determined by faculties, submitted for approval to Senate and published in the faculty prospectus where applicable.

The following general principles will apply:

- Faculties should consider not only a level (i.e., number of credits accumulated per year of registration), but also a range in which conditional readmission will apply;
- Faculties should have the discretion to determine the minimum credit value for readmission to a particular programme;
- Where the maximum study period has been reached, but a student is close to graduating in that he/she only requires a few credits to graduate, the Faculty should have clear criteria in place to apply discretion to readmit the student;
- Faculties should have the discretion to deal with possible exceptions.

Process to determine if readmission requirements have been met and to refuse readmission
The following process must be followed when reaching a decision whether the readmission requirements have been met:

- The performance of all students registered for a programme in a faculty must be reviewed

against the readmission requirements.

- Unless the Faculty Board decides otherwise, this review will normally take place at the end of an academic year.
- Students who have not yet reached the maximum years of study for their programme must be notified by Faculty Academic Administration if they have been readmitted as they met therequirements or if they have been conditionally readmitted and what the conditions are.
- The Head of Department/Director of School/Executive Dean has the delegated authority to refuse the readmission of students who have reached the maximum yearsof study for their qualification but did not manage to complete the qualification.
- The Head of Department/Director of School in collaboration with Faculty Academic Administration must convey the fact that readmission has been refused and the reasons for this must be attached to the Student Record.
- The Head of Department/Director of School must be able to provide the detailed information that informed the decision, should the decision to refuse readmission be appealed.
- A student who has been refused readmission can appeal.

Appeal procedure
- The student has the right to appeal against a decision to refuse readmission.
- The appeal will normally be handled by the Faculty Management Committee, unless the Faculty Board determines that another faculty committee must consider the appeal. In the latter instance, the Faculty Board must determine the composition of the committee. The decision reached by the appropriate faculty committee regarding the readmission appeal will be final and no further appeal will be permitted.
- The process followed to apply for, consider and deal with a readmission appeal is as follows:
  o A student must submit their appeal in writing on a prescribed readmission appeal form,with full motivation and supporting documentation, to their Faculty Academic Administration Consultant by either the last day of the re-examination period or within five (5) working days of receiving notification of readmission refusal, whichever date is the latest.
  o Faculty Academic Administration must forward the appeal, together with a copy of the student's study record and the letter in which the student was informed that he/she was being refusedreadmission, to the Faculty Management Committee.
  o The Faculty Management Committee or the committee identified by the faculty to do so will then handle the appeal where consideration could be given to factors such as:
    ▪ Whether the student participated in programmes and activities to enhance their academic progress.
    ▪ Whether there are any special circumstances related to the student's unsatisfactory academic performance that should be taken into account and which could mitigateagainst refusing readmission.
  o A statement of the outcome of the appeal and a motivation for the decision reached must be communicated to and placed on the student's record by Faculty Academic Administration.

Maximum period of study exceeded

In the event that a student exceeds the maximum allowable period of study, the student will only be readmitted under special circumstances (e.g. when the student, with due consideration of his/her academic record, is likely to complete his/her qualification by theend of the year).

STATEMENT ON THE UNIVERSITY'S INTERVENTION IN THE EVENT OF POSSIBLE DISRUPTIONS TO ACADEMIC ACTIVITIES

From past experience the University knows that circumstances beyond our control may disrupt our academic activities. The University therefore reserves the right to implement certain emergency measures when deemed necessary to manage such situations. Please note that the University shall not be held liable for any inconvenience, damage or other negative consequence resulting from the implementation of such emergency measures.

BOARD OF FACULTY/FACULTY MANAGEMENT COMMITTEE

The Board of Faculty consists of all academic staff in the Faculty, a student representative from each instructional programme and a student representative of the SRC for the faculty. The Faculty Management Committee consists of the Dean, Directors and Heads of Departments and acts as the management committee of the Board of Faculty.

DIPLOMAS

DIPLOMA IN MUSIC
(CURRICULUM 1)

Qualification code:	10006
Offering:	Full-time South Campus (A1)
Aligned NQF Level:	6
SAQA ID:	87132
Total NQF Credits for qualification:	360

THE PURPOSE OF THE LEARNING PROGRAMME
This qualification has been approved in terms of the new Higher Education Qualification Sub-Framework (HEQSF).

This programme is focused on the adult beginner. Bridging courses in practical music, music theory and English language skills are offered. Specialisation is offered in either western art music or jazz. Successful students also have the opportunity to articulate to the BMus programme, provided admission requirements for practical music studies have been met. In so doing a maximum of 240 credits attained in the diploma may be retained towards the BMus degree

Outcomes and articulation:
Candidates should note that:
- Successful completion of the *Diploma in Music* provides admission to the BMus degree, in the process of which exemption may be granted for courses common to both qualifications in accordance with General Rule 1.4.7.
- MGPV301, 302, 311 and 312 in the third year of the *Diploma in Music* provides exemption from MTAV101, 102 in the first year of the BMus degree.
- The *minimum* outcomes required for the three years levels in First Instrument: Foundation (MFPV121, 122, 221, 222, 321 and 322) are equivalent to grades 1, 2 and 3 respectively of the external examining bodies for music (Unisa, ABRSM, Trinity Guildhall). However, should candidates wish to articulate to the BMus degree upon completion of the *Diploma in Music,* and to apply to be exempted from some of the First Instrument: Advanced modules of the BMus degree, they should exceed these minimum requirements in musical performance sufficiently to qualify for First Instrument: Advanced in the BMus degree as follows:
  - admission to MFPV101, 102 requires proof of a performance ability equivalent to grade 6 of the external examining bodies for music (Unisa, ABRSM, Trinity Guildhall);
  - application for exemption from MFPV101 and 102 requires submission of a grade 7 certificate from one of the external examining bodies for music (Unisa, ABRSM, Trinity Guildhall); b) application for exemption from MFPV201 and 202 requires submission of a grade 8 certificate from one

of the external examining bodies for music (Unisa, ABRSM, Trinity Guildhall);
- application for exemption from MFPV301 and 302 requires submission of an Advanced Certificate or Licentiate certificate from one of the external examining bodies for music (Unisa, ABRSM, Trinity Guildhall).

ADMISSION REQUIREMENTS
- Minimum NSC statutory requirements for diploma entry must be met.
- An applicant with NSC Grade 12 Mathematics or Technical Mathematics requires a minimum Applicant Score of 290.
- An applicant with NSC Grade 12 Mathematical Literacy requires a minimum Applicant Score of 305.
- NSC achievement rating of at least 30% for Mathematics or 50% for Mathematical Literacy or Technical Mathematics.
- No prior formal learning in music is required. However, admission is subject to an audition in the candidate's chosen First Instrument, during which vocal or instrumental musical performance ability must be successfully demonstrated.

Obtaining the diploma:
The diploma shall be obtained by completing the prescribed modules.

Obtaining the diploma cum laude:
The Diploma in Music shall be obtained *cum laude* in accordance with General Rule 1.6.14. In terms of point d) of General Rules 1.6.14, the following compulsory modules shall be considered major modules:
- First Instrument (MFPV)
- Music Theory (MGPV or MJTV).

Compulsory modules:
- Candidates must complete all compulsory modules listed for each year of study.
- Candidates must complete at least 24 credits in Music History for the whole diploma. These credits may be selected at any year level.
- Compulsory modules in First Instrument (MFP/MFPV) and Music Theory may be offered in Western Classical Music or Jazz.

Elective modules:
Candidates must present at least 120 credits during each year of study. In addition to compulsory modules, elective modules should be selected from the list of suggested elective courses at each year level. Candidates should note that selection of non-music elective courses is subject to timetable constraints and to prior consultation with and approval of the programme leader.

Non-Music module selections are subject to timetable constraints and to consultation with the programme leader.

Modules in language skills or computer literacy may be recommended at the discretion of the Head of Department

DURATION
The qualification shall extend over at least three years of full-time study.

THE PURPOSE OF THE LEARNING PROGRAMME
This qualification has been approved in terms of the new Higher Education Qualification Sub-Framework (HEQSF).

This programme is designed for students who do have prior learning in music, but who do not qualify for entry to degree studies, or who, in the opinion of the head of department, do not yet meet the practical and theoretical entrance requirements for the BMus degree. However, on completion of this diploma they may vertically articulate to the BMus, retaining a maximum of 240 credits already attained in the DipMus

OUTCOMES AND ARTICULATION
Candidates should note that:
- Successful completion of the *Diploma in Music* provides admission to the BMus degree, in the process of which exemption may be granted for courses common to both qualifications in accordance with General Rule 1.4.7.
- MGPV301, 311, 302, 312 in the third year of the *Diploma in Music* provides exemption from MTAV101, 102 in the first year of the BMus degree.
- The *minimum* outcomes required for the three years levels in First Instrument: Intermediate (MFPV131, 132, 231, 232, 331 and 332) are equivalent to grades 3, 4 and 5 respectively of the external examining bodies for music (Unisa, ABRSM, Trinity Guildhall).

However, should candidates wish to articulate to the BMus degree upon completion of the *Diploma in Music*, and to apply to be exempted from some of the First Instrument: Advanced modules of the BMus degree, they should exceed these minimum requirements in musical performance sufficiently to qualify for First Instrument: Advanced in the BMus degree as follows:

DIPLOMA IN PUBLIC RELATIONS MANAGEMENT

Qualification code:	1862
Offering:	Full-time South Campus (A1)
Aligned NQF Level:	6
SAQA ID:	97108
Total NQF Credits for qualification:	360

THE PURPOSE OF THE LEARNING PROGRAMME

This programme has been approved in terms of the new Higher Education Qualifications Sub-Framework (HEQSF).

This programme is designed to equip candidates with the knowledge and skills needed to operate as professional public relations practitioners. The programmes also requires the student to undergo one year of experiential training in order to qualify for the diploma.

The programme has been accredited with the Public Relations Institute of South Africa (PRISA).

ADMISSION REQUIREMENTS

- Minimum NSC statutory requirements for diploma entry must be met.
- An applicant with NSC Grade 12 Mathematics or Technical Mathematics requires a minimum Applicant Score of 330.
- An applicant with NSC Grade 12 Mathematical Literacy requires a minimum Applicant Score of 345.
- NSC achievement rating of at least 30% for Mathematics 50% for Mathematical Literacy or Technical Mathematics.
- Applicants may also be provisionally admitted on the basis of work experience, age and maturity. Admission is at the discretion of the Head of Department.

Students who have passed less than 60 credits in any year will not be re-admitted to the programme, provided that the prescribed maximum period of study may not be exceeded in the process.

STATUTORY AND OTHER REQUIREMENTS

Two language modules must be passed with at least one on A-level.

The Nelson Mandela University is not legally responsible for the placing of students in suitable employment. Students are required to make their own timely arrangement for suitable co-operative placement.

Promotion rules:

Students must pass at least 60 credits for which they are enrolled to be eligible for promotion to year two. Students are also required to pass all the first- and second-year modules before promoting to the third year of study.

Experiential learning:

This programme requires the student/candidate to undergo a period of experiential learning as part of the qualification. All prescribed compulsory and elective modules (instructional offerings) and the prescribed experiential component must be passed in order to obtain sufficient credits to qualify for this qualification.

Prerequisites for experiential training:

- All final-year students shall register for experiential training and enrol for the major modules Communication Science III (BKT3000) and Public Relations III (BSU3000), simultaneously.
- No student will be permitted to enrol for the major modules unless all first- and second-level modules have been passed.
- A student who needs to re-write not more than one module may apply to the Faculty Management Committee for exemption from this rule.

DURATION

The course consists of two years of full-time study at the Nelson Mandela University followed by one year of experiential training in the Public Relations field, during which time the student completes the two major modules by correspondence. Students have to complete the experiential training component in order to qualify for the

diploma. Towards the beginning of the fourth term, all final-year students must return to the campus for a short intensive course in preparation for the final examinations.

STATUTORY AND OTHER REQUIREMENTS

Academic support:

Introduction:

The Faculty of Humanities strives to ensure that all our students are successful in their studies. Furthermore, the Faculty develops and uses, in collaboration with the Centre for Teaching, Learning and Media (CTLM), teaching and learning practices based on learner-centeredness. The Faculty of Humanities also recognises the importance of providing students with comprehensive academic support processes and interventions to ensure success in their studies.

The faculty also recognises the importance of effective teaching and learning practices to ensure the academic success of students. Therefore, proactive teaching and learning interventions are vital to ensure student success and throughput. In addition, as interaction between staff and students is required to ensure learning

difficulties are addressed, academic staff needs to allocate adequate time slots for student consultation.

Academic Support Initiatives:
Examination and test results are analysed after every examination period (June and November examinations) by the relevant Head of Department (HoD). A detailed report is then submitted to the School Management Committee (SMC) for action. A final report is submitted by the Director of the School (DoS) to the Faculty Management Committee (FMC) (normally in February and August). The report includes proposed remedial actions to be put in place for the modules where a low pass rate was obtained. Remedial actions and interventions are linked to teaching and learning practices, curricula design, academic support, time-abling and venue availability.

Barriers to learning are then identified by FMC and addressed by the Faculty Teaching and learning Committee, FMC, Emthonjeni or referred to the particular SMC for further action.

Review of academic progress:
Lecturers monitor the academic progress of students throughout the semester, especially after each semester test. Lecturers will use academic support initiatives to ensure support at an early stage to potentially at risk students. These interventions may include referrals to SCCDC for Guidance and Counselling, Learning Skills Enhancement Programmes, or interventions in collaboration with CTLM like Tutorials or SI.

In programmes where **semester modules** are offered, Faculty Administration in consultation with Heads of Department, monitors progress at the end of each semester. Students whose progress is deemed unsatisfactory will receive either warning/conditional letters in accordance with the approved rules, where applicable.

In programmes where **year modules** are offered, progress will be monitored by relevant HoDs. Students whose progress is deemed unsatisfactory will receive either warning/conditional letters or be denied re-admission to the programme, in accordance with the approved rules. HoDs will where necessary

DURATION

BACHELOR OF MUSIC (GENERAL) (*NO NEW INTAKE*)

Qualification code:	10055
Offering:	Full-time South Campus (A1)
Aligned NQF Level:	8
SAQA ID:	87254
Total NQF Credits for qualification:	480

THE PURPOSE OF THE LEARNING PROGRAMME
This programme has been approved in terms of the new Higher Education Qualifications Sub-Framework (HEQSF)

The purpose of the BMus degree is to qualify the student for a career in the broad music profession as a performer, arranger, composer, researcher, music technologist or music educator, depending on the electives and specialisation. Each curriculum for the BMus degrees offered at Nelson Mandela University has a specific specialisation. On completion of this qualification, the student will have attained a comprehensive and systematic knowledge base in the field of music and a depth of knowledge in the chosen area of specialisation. By this means the student will be contributing to the development of the sector. The student will have a coherent and critical understanding of the theories and practices in the field of music and an ability to conduct research and critique advanced scholarship in the area of specialisation. The student will also be able to make sound theoretical judgments based on evidence and have an ability to think critically within the discipline.

The student will develop an understanding of a range of research methods, techniques and technologies and an ability to select these appropriately for a specific research problem in the area of specialisation. The student will have an ability to identify, analyse and deal with complex and/or practical problems and issues using evidence-based solutions and theory-driven arguments. The student will have acquired efficient and effective information retrieval and processing skills. The student will be able to identify, critically analyse, synthesize and independently evaluate quantitative and/or qualitative data. The student will have the ability to engage with current research and scholarly literature in music. The student will be able to engage with current technology as applied in the field of music.

The student will be able to present and communicate academic and/or professional work effectively, catering for a variety of audiences by using a range of different media appropriate to the context. The qualification has been structured in such a manner as to promote transformation in music in the broadest sense. Learning programmes will contribute to the personal development of the individual student and to social and economic development by applying the Critical Cross-Field Outcomes.

ADMISSION REQUIREMENTS
Minimum statutory NSC requirements for degree entry must be met for all curricula.

Curriculum 5: General
- Minimum NSC statutory requirements for degree entry must be met.
- An applicant with NSC Grade 12 Mathematics or Technical Mathematics requires a minimum Applicant Score of 350.
- An applicant with NSC Grade 12 Mathematical Literacy requires a minimum Applicant Score of 365.
- NSC achievement rating of at least 40% for Mathematics or 60% for Mathematical Literacy or Technical Mathematics.
- If an applicant presents with Mathematical Literacy instead of Mathematics, additional modules may be added to the programme, which will extend the length of the programme.
- A minimum practical standard equivalent to Grade 6 of the external examining bodies is required for admission to the first module of First Instrument: Advanced.
- A minimum theoretical standard equivalent to Grade 5 of the external examining bodies is required for admission to the first module of Music Theory, Analysis and Aural Development.
- The capacity of the Department of Music may, in any given year, lead to a limitation on the number of students that may be admitted.

STATUTORY AND OTHER REQUIREMENTS
Academic support:
Introduction
The Faculty of Humanities strives to ensure that all our students are successful in their studies. Furthermore, the Faculty develops and uses, in collaboration with the Centre for Teaching, Learning and Media (CTLM), teaching and learning practices based on learner-centeredness. The Faculty of Humanities also recognises the importance of providing students with comprehensive academic support processes and interventions to ensure success in their studies.

The faculty also recognises the importance of effective teaching and learning practices to ensure the academic success of students. Therefore, proactive teaching and learning interventions are vital to ensure student success and throughput. In addition, as interaction between staff and students is required to ensure learning difficulties are addressed, academic staff needs to allocate adequate time slots for student consultation.

Academic Support Initiatives:
Examination and test results are analysed after every examination period (June and November examinations) by the relevant Head of Department (HoD). A detailed report is then submitted to the School Management Committee (SMC) for action. A final report is submitted by the Director of the School (DoS) to the Faculty Management Committee (FMC) (normally in February and August). The report includes proposed remedial actions to be put in place for the modules where a low pass rate was obtained. Remedial actions and interventions are linked to teaching

and learning practices, curricula design, academic support, time-tabling and venue availability.

Barriers to learning are then identified by FMC and addressed by the Faculty Teaching and learning Committee, FMC, Emthonjeni or referred to the particular SMC for further action.

Review of academic progress:
Lecturers monitor the academic progress of students throughout the semester, especially after each semester test. Lecturers will use academic support initiatives to ensure support at an early stage to potentially at risk students. These interventions may include referrals to SCCDC for Guidance and Counselling, Learning Skills Enhancement Programmes, or interventions in collaboration with CTLM like Tutorials or SI.

In programmes where **semester modules** are offered, Faculty Administration in consultation with Heads of Department, monitors progress at the end of each semester. Students whose progress is deemed unsatisfactory will receive either warning/conditional letters in accordance with the approved rules, where applicable.

In programmes where **year modules** are offered, progress will be monitored by relevant HoDs. Students whose progress is deemed unsatisfactory will receive either warning/conditional letters or be denied re-admission to the programme, in accordance with the approved rules. HoDs will where necessary identify remedial actions and implement academic support initiatives.

DURATION
The qualification shall extend over four years of full-time study.

THE PURPOSE OF THE LEARNING PROGRAMME
This programme has been approved in terms of the new Higher Education Qualifications Sub-Framework (HEQSF)

The purpose of the BMus degree is to qualify the student for a career in the broad music profession as a performer, arranger, composer, researcher, music technologist or music educator depending on the electives chosen for the Inter-disciplinary curriculum. This curriculum for the Interdisciplinary BMus degree offers the student

the opportunity to major with Music and non-music modules. On completion of this qualification, the student will have attained a comprehensive and systematic knowledge base in the field of music and a depth of knowledge in the non-music field. By this means the student will be contributing to the development of the sector. The student will have a coherent and critical understanding of the theories and practices in the field of music and an ability to conduct research and critique advanced scholarship in a non-music field. The student will also be able to make sound theoretical judgments based on evidence and have an ability to think critically within the   discipline.

The student will develop an understanding of a range of research methods, techniques and technologies and an ability to select these appropriately for a specific research problem in the area of specialisation. The student will have an ability to identify, analyse and deal with complex and/or practical problems and issues using evidence-based solutions and theory-driven arguments. The student will have acquired efficient and effective information retrieval and processing skills. The student will be able to identify, critically analyse, synthesize and independently evaluate quantitative and/or qualitative data. The student will have the ability to engage with current research and scholarly literature in music. The student will be able to engage with current technology as applied in the field of music.

The student will be able to present and communicate academic and/or professional work effectively, catering for a variety of audiences by using a range of different media appropriate to the context. The qualification has been structured in such a manner as to promote transformation in music in the broadest sense. Learning programmes will contribute to the personal development of the individual learner and to social and economic development by applying the Critical Cross-Field Outcomes.

ADMISSION REQUIREMENTS
Minimum statutory NSC requirements for degree entry must be met for all curricula.

Curriculum 4: Inter-Disciplinary Studies
- Minimum NSC statutory requirements for degree entry must be met.
- An applicant with NSC Grade 12 Mathematics or Technical Mathematics requires a minimum Applicant Score of 350.
- An applicant with NSC Grade 12 Mathematical Literacy requires a minimum Applicant Score of 365.
- NSC achievement rating of at least 40% for Mathematics or 60% for Mathematical Literacy or Technical Mathematics.
- Passes in Music Practical Grade 6 and Music Theory Grade 5.
- The capacity of the Department of Music may, in any given year, lead to a limitation on the number of students that may be admitted.

STARUTORY AND OTHER REQUIREMENTS
Academic support:
Introduction:
The Faculty of Humanities strives to ensure that all our students are successful in their studies. Furthermore, the Faculty develops and uses, in collaboration with the

Centre for Teaching, Learning and Media (CTLM), teaching and learning practices based on learner-centeredness. The Faculty of Humanities also recognises the importance of providing students with comprehensive academic support processes and interventions to ensure success in their studies.

The faculty also recognises the importance of effective teaching and learning practices to ensure the academic success of students. Therefore, proactive teaching and learning interventions are vital to ensure student success and throughput. In addition, as interaction between staff and students is required to ensure learning difficulties are addressed, academic staff needs to allocate adequate time slots for student consultation.

Academic Support Initiatives:
Examination and test results are analysed after every examination period (June and November examinations) by the relevant Head of Department (HoD). A detailed report is then submitted to the School Management Committee (SMC) for action. A final report is submitted by the Director of the School (DoS) to the Faculty Management Committee (FMC) (normally in February and August). The report includes proposed remedial actions to be put in place for the modules where a low pass rate was obtained. Remedial actions and interventions are linked to teaching and learning practices, curricula design, academic support, timetabling and venue availability.

Barriers to learning are then identified by FMC and addressed by the Faculty Teaching and learning Committee, FMC, Emthonjeni or referred to the particular SMC for further action.

Review of academic progress:
Lecturers monitor the academic progress of students throughout the semester, especially after each semester test. Lecturers will use academic support initiatives to ensure support at an early stage to potentially at risk students. These interventions may include referrals to SCCDC for Guidance and Counselling, Learning Skills Enhancement Programmes, or interventions in collaboration with CTLM like Tutorials or SI.

In programmes where **semester modules** are offered, Faculty Administration in consultation with Heads of Department, monitors progress at the end of each semester. Students whose progress is deemed unsatisfactory will receive either warning/conditional letters in accordance with the approved rules, where applicable.

Introduction:
The Faculty of Humanities strives to ensure that all our students are successful in their studies. Furthermore, the Faculty develops and uses, in collaboration with the Centre for Teaching, Learning and Media (CTLM), teaching and learning practices based on learner-centeredness. The Faculty of Humanities also recognises the importance of providing students with comprehensive academic support processes and interventions to ensure success in their studies.

The faculty also recognises the importance of effective teaching and learning practices to ensure the academic success of students. Therefore, proactive teaching and learning interventions are vital to ensure student success and throughput. In addition, as interaction between staff and students is required to ensure learning difficulties are addressed, academic staff needs to allocate adequate time slots for student consultation.

Academic Support Initiatives:
Examination and test results are analysed after every examination period (June and November examinations) by the relevant Head of Department (HoD). A detailed report is then submitted to the School Management Committee (SMC) for action. A final report is submitted by the Director of the School (DoS) to the Faculty Management Committee (FMC) (normally in February and August). The report includes proposed remedial actions to be put in place for the modules where a low pass rate was obtained. Remedial actions and interventions are linked to teaching and learning practices, curricula design, academic support, timetabling and venue availability.

Barriers to learning are then identified by FMC and addressed by the Faculty Teaching and learning Committee, FMC, Emthonjeni or referred to the particular SMC for further action.

Review of academic progress:
Lecturers monitor the academic progress of students throughout the semester, especially after each semester test. Lecturers will use academic support initiatives to ensure support at an early stage to potentially at risk students. These interventions may include referrals to SCCDC for Guidance and Counselling, Learning Skills Enhancement Programmes, or interventions in collaboration with CTLM like Tutorials or SI.

In programmes where **semester modules** are offered, Faculty Administration in consultation with Heads of Department, monitors progress at the end of each semester. Students whose progress is deemed unsatisfactory will receive either warning/conditional letters in accordance with the approved rules, where applicable.

In programmes where **year modules** are offered, progress will be monitored by relevant HoDs. Students whose progress is deemed unsatisfactory will receive either warning/conditional letters or be denied re-admission to the programme, in accordance with the approved rules. HoDs will where necessary identify remedial actions and implement academic support initiatives.

DURATION
The qualification shall extend over four years of full-time study.

THE PURPOSE OF THE LEARNING PROGRAMME
This programme has been approved in terms of the new Higher Education Qualifications Sub-Framework (HEQSF)

The purpose of the BMus degree is to qualify the student for a career in the broad music profession as a performer, arranger, composer, researcher, music technologist or music educator depending on the electives and specialisation. Each curriculum for the BMus degrees offered at Nelson Mandela University has a specific specialisation. On completion of this qualification, the student will have attained a comprehensive and systematic knowledge base in the field of music and a depth of knowledge in the chosen area of specialisation. By this means the student will be contributing to the development of the sector. The student will have a coherent and critical understanding of the theories and practices in the field of music and an ability to conduct research and critique advanced scholarship in the area of specialisation. The student will also be able to make sound theoretical judgments based on evidence and have an ability to think critically within the discipline.

The student will develop an understanding of a range of research methods, techniques and technologies and an ability to select these appropriately for a specific research problem in the area of specialisation. The student will have an ability to identify, analyse and deal with complex and/or practical problems and issues using evidence-based solutions and theory-driven arguments. The student will have acquired efficient and effective information retrieval and processing skills. The student will be able to identify, critically analyse, synthesize and independently evaluate quantitative and/or qualitative data. The student will have the ability to engage with current research and scholarly literature in music. The student will be able to engage with current technology as applied in the field of music.

The student will be able to present and communicate academic and/or professional work effectively, catering for a variety of audiences by using a range of different media appropriate to the context. The qualification has been structured in such a manner as to promote transformation in music in the broadest sense. Learning programmes will contribute to the personal development of the individual learner and to social and economic development by applying the Critical Cross-Field Outcomes.

ADMISSION REQUIREMENTS
Minimum statutory NSC requirements for degree entry must be met for all curricula.

Curriculum 2: Performing Arts
- Minimum NSC statutory requirements for degree entry must be met.
- An applicant with NSC Grade 12 Mathematics or Technical Mathematics requires a minimum Applicant Score of 350.
- An applicant with NSC Grade 12 Mathematical Literacy requires a minimum Applicant Score of 365.
- NSC achievement rating of at least 40% for Mathematics or 60% for Mathematical Literacy or Technical Mathematics.
- Passes in Music Practical Grade 6 and Music Theory Grade 5.
- The capacity of the Department of Music may, in any given year, lead to a limitation on the number of students that may be admitted.

- The purpose of the BMus (Performing Arts) is to equip students with the ability to work as performing artists in a creative environment, and to develop the ability to critically engage with relevant conventions of performance practice.

ADMISSION REQUIREMENTS
- Minimum statutory NSC requirements for degree entry must be met.
- An applicant with NSC Grade 12 Mathematics or Technical Mathematics requires a minimum Applicant Score of 350.
- An applicant with NSC Grade 12 Mathematical Literacy requires a minimum Applicant Score of 365.
- NSC achievement rating of at least 40% for Mathematics or Technical Mathematics or 60% for Mathematical Literacy.
- A minimum practical music standard equivalent to Grade 6 of the external examining bodies for music is required for admission to the first module of First Instrument: Advanced.
- A minimum standard in music theory equivalent to Grade 5 of the external examining bodies for music is required for admission to the first module of Music Theory, Analysis and Aural Development.
- Admission is subject to an audition in the applicant's chosen First Instrument and to a music theory entrance test.

STAUTORY AND OTHER REQUIREMENTS
Academic support:
Introduction:
The Faculty of Humanities strives to ensure that all our students are successful in their studies. Furthermore, the Faculty develops and uses, in collaboration with the Centre for Teaching, Learning and Media (CTLM), teaching and learning practices

based on learner-centeredness. The Faculty of Humanities also recognises the importance of providing students with comprehensive academic support processes and interventions to ensure success in their studies.

The faculty also recognises the importance of effective teaching and learning practices to ensure the academic success of students. Therefore, proactive teaching and learning interventions are vital to ensure student success and throughput. In addition, as interaction between staff and students is required to ensure learning difficulties are addressed, academic staff needs to allocate adequate time slots for student consultation.

Academic Support Initiatives:
Examination and test results are analysed after every examination period (June and November examinations) by the relevant Head of Department (HoD). A detailed report is then submitted to the School Management Committee (SMC) for action. A final report is submitted by the Director of the School (DoS) to the Faculty Management Committee (FMC) (normally in February and August). The report includes proposed remedial actions to be put in place for the modules where a low pass rate was obtained. Remedial actions and interventions are linked to teaching and learning practices, curricula design, academic support, time-tabling and venue availability.

Barriers to learning are then identified by FMC and addressed by the Faculty Teaching and learning Committee, FMC, Emthonjeni or referred to the particular SMC for further action.

Review of academic progress:
Lecturers monitor the academic progress of students throughout the semester, especially after each semester test. Lecturers will use academic support initiatives to ensure support at an early stage to potentially at risk students. These interventions may include referrals to SCCDC for Guidance and Counselling, Learning Skills Enhancement Programmes, or interventions in collaboration with CTLM like Tutorials or SI.

In programmes where **semester modules** are offered, Faculty Administration in consultation with Heads of Department, monitors progress at the end of each semester. Students whose progress is deemed unsatisfactory will receive either warning/conditional letters in accordance with the approved rules, where applicable.

In programmes where **year modules** are offered, progress will be monitored by relevant HoDs. Students whose progress is deemed unsatisfactory will receive either warning/conditional letters or be denied re-admission to the programme, in accordance with the approved rules. HoDs will where necessary identify remedial actions and implement academic support initiatives.

DURATION
The qualification shall extend over four years of full-time study.

BACHELOR OF VISUAL ARTS

Qualification code:	10050
Offering:	Full-time South Campus (A1)
Aligned NQF Level:	7
SAQA ID:	93884
Total NQF Credits for qualification:	373

THE PURPOSE OF THE LEARNING PROGRAMME
This programme has been approved in terms of the new Higher Education Qualifications Sub-Framework (HEQSF)

The Bachelor of Visual Arts comprises four separate discipline streams that share a generic first year. These streams are accessed from the second year of the BVA. They are:

- Fashion and Textiles
- Fine Art
- Graphic Design
- Photography

ADMISSION REQUIREMENTS
- Minimum NSC statutory requirements for degree entry must be met.
- An applicant with NSC Grade 12 Mathematics or Technical Mathematics requires a minimum Applicant Score of 350.
- An applicant with NSC Grade 12 Mathematical Literacy requires a minimum Applicant Score of 365.
- Admission is subject to Departmental selection.
- Qualifying applicants will be required to prepare a prescribed portfolio, undertake an interview with the Department's staff as well as a discussion of the portfolio, and complete a placement assessment.

Progression into the second-year streams of Fashion and Textiles, Fine Art, Graphic Design or Photography:
As indicated above opportunity for selection into the specialisation streams of Fashion and Textiles, Fine Art, Graphic Design or Photography happens at the end of the first year of study. As the School has limited capacity to accommodate the various disciplines, this implies that, should the number of applicants exceed capacity, a selection procedure based on creative merit must be applied. Only after successfully completing all compulsory modules in the first year of the BVA degree, are students considered for placement into these streams.

The final placement procedure into the streams takes place at the end of the academic year and is based on the following criteria:
- The student will be requested to indicate two choices of preferred specialisation at second-year level.
- The student must attend an interview with a panel of subject specialist lecturers, together with the relevant Head of Department.
- The student must submit a portfolio of relevant work appropriate to his/her proposed study field, for consideration at the said interview(s).
- The student may be required to complete a challenge test. This may be a written challenge, on a given topic, conducted under controlled conditions; or the production of a creative visual output, according to a prescribed brief, that shows process evidence of the student's creative ability.
- During the interview process, students are counselled as to the specialisation most suited to their abilities, and are subsequently offered a place in a suitable alternative field of study according to available capacity.

Departments reserve the right to accept only those students who display the appropriate aptitude for the intended field of study. Students have the right to appeal the placement offered through appropriate channels. All placements made as a result of the abovementioned interview process must be deemed to be provisional. Applicants will be informed of the result/s of their interviews once all the sets of interviews have been completed and the panels have completed their deliberations. Admission remains conditional until confirmed after the publication of the official first-year results.

STATUTORY AND OTHER REQUIREMENTS
Class attendance and minimum requirements for test and project submission:

127

80% attendance is compulsory and non-negotiable. Students must write a minimum of 80% of all theory tests and submit at least 80% of all practical assignments/projects (medical certificates will only be taken into account for the other 20%).

Upon successful completion of the BVA, the student will be awarded the degree Bachelor of Visual Arts with endorsement in the Specialist stream.

DURATION
The qualification shall extend over at least three years of full-time study.

BACHELOR OF ARTS HONOURS IN ANTHROPOLOGY

Qualification code:	11053
Offering:	Full-time South Campus (A1)
Aligned NQF Level:	8
SAQA ID:	108854
Total NQF Credits for qualification:	120

THE PURPOSE OF THE LEARNING PROGRAMME
This programme has been approved in terms of the new Higher Education Qualifications Sub-Framework (HEQSF)

The purpose of the proposed Anthropology Honours programme is to equip students with the skills needed to engage in higher level research activities as prerequisites for an MA (research) Anthropology degree. Students, who exit the university with an Anthropology Honours degree, may find employment as entry-level research assistants in a variety of areas specific to social research studies or consultative work within the health sector, business organizations, heritage, conservation, and tourism or community development.

Skills and knowledge developed in the undergraduate social sciences degrees will be built upon through a consolidation of theoretical knowledge and practical research. Students will examine research in praxis through participation in the relevant theoretical modules and research project. Exploring the roles of the Anthropologist, BA Honours in Anthropology students will further develop their understanding of the application of Anthropological theory and method. By applying Anthropological techniques in specialized focal areas chosen by the student for the research project, knowledge of both research methods and ethical practice will be deepened.

The proposed curriculum aims to deepen students' knowledge of research skills and models and theoretical underpinnings of Anthropology gained in their undergraduate Anthropology majors. The BA Honours Programme in Anthropology will provide students with a balance between theoretical knowledge, specific Anthropological research techniques and the practice of theoretical knowledge and techniques in research project development. Such a balance enables students to develop engagement in reflection and critique of socio-cultural processes.

ADMISSION REQUIREMENTS

- A relevant Bachelor of Arts social science degree with an average of 60% in Anthropology or a cognate discipline, as approved by the Department.
- Students who have a BA undergraduate degree and ¾ of the undergraduate Anthropology modules as electives will be considered for acceptance into the BA Anthropology Honours degree subject to having a minimum of 60% entry average in Anthropology modules and degree average.
- Prospective BA Anthropology Honours students should have a 60% average at NQF level 7.
- Students who do not possess a degree but wish to be admitted to the programme based on recognition of prior learning may be given recognition in terms of the NMU RPL policy.
- Admission is subject to departmental selection. Subject to the receipt of all the documentation required in the application process.

RE-ADMISSION REQUIREMENTS

Students, who have not completed the degree after two years, must apply for re-admission to the studies for the degree. Should such students be re-admitted, the retention of credits already obtained towards the degree shall be subject to departmental approval.

DURATION

The qualification shall extend over one year of full-time study.

Offering:	Full-time South Campus (A1) **OR** Part-time South Campus (A2)
Aligned NQF Level:	8
SAQA ID:	110818
Total NQF Credits for qualification:	130

THE PURPOSE OF THE LEARNING PROGRAMME

This programme has been approved in terms of the new Higher Education Qualifications Sub-Framework (HEQSF)

The BA Honours in English aims to fulfil the following requirements of English Studies. Graduates will be equipped to:

Construct and continue elaborating on a firm knowledge base concerning a range of imaginative writing, literary genres and milieus, by utilising appropriate critical theory in order to expand their understanding of the complexity of human society.

Implement and develop research skills in close and careful reading, thinking critically and creatively about meanings, gauging the value of ideas independently, assessing the applicability of ideas to contemporary and local contexts, and formulating coherent logical arguments in response to current literary and theoretical debates for use in forums and submission to journals. These essential skills are vital in an environment where flexible, innovative thinking and the ability to learn are as important as producing a "cutting edge" knowledge base.

Become independent, critical and creative thinkers who actively contribute to local communities, and broader national and international contexts.

ADMISSION REQUIREMENTS
No person shall be considered for registration for the Bachelor of Arts Honours in English Literature degree unless he/she holds a Bachelor's degree with a minimum pass of 60% for English Literature at NQF Level 7 (third-year level), or unless otherwise determined by the Head of Department.

Students who wish to be admitted to the programme on the basis of recognition of prior learning may be given recognition in terms of the NMMU RPL policy.

RE-ADMISSION REQUIREMENTS
Students, who have not completed the degree after two years, must apply for re-admission to the studies for the degree. Should such students be re-admitted, the retention of credits already obtained towards the degree shall be subject to departmental approval.

DURATION
The qualification shall extend over one year of full-time or two years of part-time study.

THE PURPOSE OF THE LEARNING PROGRAMME
This programme has been approved in terms of the new Higher Education Qualifications Sub-Framework (HEQSF)

The curriculum of the BA Hons in Political and Conflict Studies seeks to create a sound foundation for critical academic citizenship through offering different modules that promote the holistic development of future scholars by focusing on key knowledge areas, applied knowledge and skills transfer to allow students to think about real-world problems in an abstract way. This qualification creates a distinctive knowledge paradigm needed to grow future scholars that transcend traditional specialism with the more holistic focus needed to deal with the political challenges of the 21st century. This qualification facilitates teaching and learning in additional scarce skills such as social cohesion, international relations, peace-keeping, and democracy development.

The proposed curriculum consists of core modules, and three possible electives. The selection of core and electives depends on the particular focus area of specialization. All modules in this programme contribute in an integrated fashion towards the following purposes:

- The programme produces an interdisciplinary graduate with a knowledge base in political studies, conflict, and international relations. With an interdisciplinary knowledge base, graduates will have the ability to draw of diverse theoretical paradigms in order to conceptualise real world problems in an abstract way. This will include drawing on cognitive political theory, political sociology, conflict management and transformation, and global politics theoretical frames to analyse contemporary socio-political and socio-economic problems with the aim of adding to the body of knowledge in advancing sustainable solutions to contemporary global problems.
- Social sciences have a key role to play in addressing contemporary global, regional, and local challenges. This role, however, is also contingent upon pursuing interdisciplinary research to facilitate the advancement of new knowledge, approaches, and insights in analysis of contemporary political

145

phenomena. With an interdisciplinary theoretical frame, graduates will be able to use creative research methodologies in advancing their research with an interdisciplinary vantage point.

ADMISSION REQUIREMENTS

- A relevant Bachelor's degree, with an average of 65% scored at third year.
- Candidates who have passed the examinations on the grounds that they will be awarded a relevant Bachelor's degree by the University or on the grounds that the required status may later be granted to them, may be accepted as candidates for Honours degrees.
- Additional requirements relating to the level of competence achieved for the Bachelor's degree may be stipulated in the Faculty rules.

RE-ADMISSION REQUIREMENTS

Students, who have not completed the degree after two years, must apply for re-admission to the studies for the degree. Should such students be re-admitted, the retention of credits already obtained towards the degree shall be subject to departmental approval.

DURATION

The qualification shall extend over one year of full-time study.

THE PURPOSE OF THE LEARNING PROGRAMME
This programme has been approved in terms of the new Higher Education Qualifications Sub-Framework (HEQSF)

Graduates exit the programme trained according to the ideals of best practice within a chosen visual Arts discipline. This is synchronous with the need to achieve high levels of creative, conceptual and technical proficiency in the visual and design Arts and reinforces professionalism in creative and business practice. A key tennet of the learning resides in stimulating personal growth through practicing analytical, critical, reflective and problem-solving skills. Further to this is the intent to develop the student's world view such that there is a deeper understanding of the role the visual art and design disciplines have in influencing society. Contributing to the pool of suitably skilled, and creative, art and design graduates in South Africa in the areas of fashion and textile design, fine art, graphic design, photography and hybrid visual Arts disciplines is synergistic with the importance placed on the entrepreneurial element of the programme. A significant aspect of the programme is the formal engagement to develop a culture of research within the visual and design Arts that will contribute to the production of new knowledge and the growth of postgraduate studies.

ADMISSION REQUIREMENTS

Bachelor of Visual Arts Degree or equivalent qualification or proof of attainment of an adequate level of competence via the rules relating to Recognition of Prior Learning (RPL) Policy.

SELECTION PROCEDURE

The final placement procedure for entrance takes place at the end of the academic year and is based on the following criteria:

- The student must attend an interview and submit a portfolio of relevant, or required work, appropriate to their discipline
- The student must pass all modules in the Bachelor of Visual Arts Degree.
- At least 65% in Visual Studies III (KVS310) and at least 65% in each Studio Major III module in the Fashion and Textiles, Fine Art, Graphic Design or Photography streams, is mandatory.
- In addition, students who have majored in Fine Arts must attain a 65% pass mark in Drawing III (KDR310).
- Students may be required to complete a challenge test in order to finalise the selection process.
- Upon acceptance students may only register for the discipline stream that is a continuation of their first degree.

RE-ADMISSION REQUIREMENTS

Students, who have not completed the degree after two years, must apply for re-admission to the studies for the degree. Should such students be re-admitted, the retention of credits already obtained towards the degree shall be subject to departmental approval.

STATUTORY AND OTHER REQUIREMENTS

Class attendance and minimum requirements for test and project submission:
80% attendance is compulsory and non-negotiable. Students must write a minimum of 80% of all theory tests and submit at least 80% of all practical assignments/projects (medical certificates will only be taken into account for the other 20%).

Offering:	Full-time South Campus (A1) **OR** Part-time South Campus (A2)
Aligned NQF Level:	9
SAQA ID:	87167
Total NQF Credits for qualification:	180

THE PURPOSE OF THE LEARNING PROGRAMME
This programme has been approved in terms of the new Higher Education Qualifications Sub-Framework (HEQSF)

To provide both full-time and part-time students within the field of creative media production with the skills to be able to become advanced creative media practitioners, and obtain a formal postgraduate qualification in Creative Media Production.

A prospective student must contact the relevant Head of Department wherein his/her studies will take place, before applying for admission.

ADMISSION REQUIREMENTS
The following minimum criteria must be met in order for the application to be considered:
- The applicant must hold a BA Honours in Media Studies or a cognate discipline
- In addition, applicants must prepare a submission (involving a portfolio of their creative work in video production, design, digital animation, or scriptwriting) for the Department of Media and Communication. This submission must include the following:
  - a portfolio containing a minimum of three projects
  - a cover letter explaining the context in which the works contained in the portfolio were created
  - a reflective essay of 1000 words, in which the formal/thematic features of the portfolio works are critically discussed
- The above will be assessed on the basis of the following criteria:

o the projects of the portfolio must reflect a theoretical and creative ability consonant with NQF level 8 in terms of its experimental and innovative dynamics
o the reflective essay must exhibit a critical ability, consonant with NQF level 8 study, in terms of its appraisal of the projects and its thematization of relationships (resonances and/or dissonances) between the features of the projects.

Selection is at the discretion of the Department of Media and Communication. However, in order to widen student access to postgraduate education, students who do not possess the required BA Honours degree but who hold a BA degree and wish to be admitted to the programme on the basis of recognition of prior learning, may be given recognition in terms of the Nelson Mandela University RPL policy on the basis of their industry experience/work provided these are consonant with NQF level 8 study. However, the final decision on the RPL application rests with the Department of Media and Communication.

A candidate must submit a research proposal for approval by the Faculty Postgraduate Studies Committee within the prescribed minimum period as stipulated in the postgraduate research policy. Once such approval has been obtained, an official research project is registered by the Manager: Faculty Administration.

STATUTORY AND OTHER REQUIREMENTS
- An application for registration as a student for a postgraduate research qualification may, after approval by the Head of Department or Director of School, be processed by prospective student via the online registration system.

THE PURPOSE OF THE LEARNING PROGRAMME
The purpose of this new programme is to provide both full-time and part-time students within the field of languages and literature with writing skills to be able to become authors of fiction and/or poetry, and obtain a formal postgraduate qualification in Creative Writing.

ADMISSION REQUIREMENTS
- An Honours degree in *one* of the languages of the course (Afrikaans or English or isiXhosa). Candidates without such a degree may, at the discretion of the Department of Language and Literature, be admitted to the MA on the basis of their extensive publishing history.
- A further selection criterion will be a portfolio of writing comprising at least fifty pages (1.5 spacing) of prose, poetry or a play manuscript, in Afrikaans or English or isiXhosa. The portfolio must also contain a covering letter and details of academic qualifications and/or publishing history. The covering letter should describe the proposed creative project that the candidate wishes to undertake for the MA (this is not a detailed proposal, but a succinct description of the proposed project).
- Candidates without the required honours degree may, at the discretion of the Department of Language and Literature, be admitted to the MA on the basis of submitting examples of their publications as well as providing a detailed publishing record.
- In order to widen student access to postgraduate education, students who do not possess the required Honours degree but wish to be admitted to the programme on the basis of recognition of prior learning may be given recognition in terms of the NMU RPL policy.

STATUTORY AND OTHER REQUIREMENTS
- *An application for registration as a student for a postgraduate research qualification may, after approval by the Head of Department or Director of School, be processed by prospective student via the online registration system.*
- *Where applicable, a candidate must submit a research proposal for approval by the Faculty Postgraduate Studies Committee within the prescribed minimum*

period as stipulated in the postgraduate research policy. Once such approval has been obtained, an official research project is registered by the Manager: Faculty Administration.

- *Unless the Faculty Postgraduate Studies Committee decides otherwise, no candidate will be allowed to continue with his/her studies if a research project has not been registered within the prescribed minimum period as stipulated in the postgraduate research policy.*

THE PURPOSE OF THE LEARNING PROGRAMME
This programme has been approved in terms of the new Higher Education Qualifications Sub-Framework (HEQSF)

Unless stipulated otherwise hereinafter, or unless the context indicates otherwise, the general rules for all qualifications shall also apply to Masters' degrees.

ADMISSION REQUIREMENTS
Academic qualification: BVA Hons or equivalent Honours degree, professional four-year degree or equivalent, or Recognition of Prior Learning according to the University's policy.

Candidates who have passed the examinations on the grounds that they will be awarded the relevant degree by the University or on the grounds that the required status may later be granted to them, or who have in any other manner (e.g. RPL) attained a level of competence required for the purpose of postgraduate studies or research at Master's level, may be accepted as candidates for the *MA (Fashion Design)*. ⌈L SEP⌉

All applicants must make an appointment to meet with the Programme Leader to discuss their area of expertise and the intended research project. Apart from the general admission requirements, and depending upon the nature of the proposed research, a candidate may be required to fulfil further requirements.

These include the following:
- Submit a portfolio of creative work that shows a suitable level of conceptual and technical competency, for review by a panel of experts.
- Provide evidence of an ability to write academically. This may include published books and articles, book reviews, conference proceedings, speeches and presentations. The School's panel for advanced degrees will review the writing.
- Undertake an oral before a panel of experts to determine the candidate's tacit knowledge.
- Should these assessments yield a positive outcome, the candidate will be invited to an interview with the Programme Leader and/or Head of Department.
- The Head of Department must approve all applications before registration can

take place.

THE PURPOSE OF THE LEARNING PROGRAMME
This programme has been approved in terms of the new Higher Education Qualifications Sub-Framework (HEQSF)

Unless stipulated otherwise hereinafter, or unless the context indicates otherwise, the general rules for all qualifications shall also apply to Masters' degrees.

ADMISSION REQUIREMENTS
- Academic qualification: BVA Hons or equivalent Honours degree, professional four-year degree or equivalent, or Recognition of Prior Learning according to the University's policy.
- Candidates who have passed the examinations on the grounds that they will be awarded the relevant degree by the University or on the grounds that the required status may later be granted to them, or who have in any other manner (e.g. RPL) attained a level of competence required for the purpose of postgraduate studies or research at Master's level, may be accepted as candidates for the *MA (Textile Design).*
- All applicants must make an appointment to meet with the Programme Leader to discuss their area of expertise and the intended research project. Apart from the general admission requirements, and depending upon the nature of the proposed research, a candidate may be required to fulfil further requirements.

These include the following:
- Submit a portfolio of creative work, that shows a suitable level of conceptual and technical competency, for review by a panel of experts
- Provide evidence of an ability to write academically. This may include published books and articles, book reviews, conference proceedings, speeches and presentations. The School's panel for advanced degrees will review the writing.
- Undertake an oral before a panel of experts to determine the candidate's tacit knowledge.
- Should these assessments yield a positive outcome, the candidate will be invited to an interview with the Programme Leader and/or Head of Department. The Head of Department must approve all applications before registration can take place.

STATUTORY AND OTHER REQUIREMENTS

- An application for registration as a student for a postgraduate research qualification may, after approval by the Head of Department or Director of School, be processed by prospective student via the online registration system.
- Where applicable, a candidate must submit a research proposal for approval by the Faculty Postgraduate Studies Committee within the prescribed minimum period as stipulated in the postgraduate research policy. Once such approval has been obtained, an official research project is registered by the Manager: Faculty Administration.
- Unless the Faculty Postgraduate Studies Committee decides otherwise, no candidate will be allowed to continue with his/her studies if a research project has not been registered within the prescribed minimum period as stipulated in the postgraduate research policy.

DURATION

The qualification shall extend over one year of full-time or two years of part-time study.

THE PURPOSE OF THE LEARNING PROGRAMME
This programme has been approved in terms of the new Higher Education Qualifications Sub-Framework (HEQSF)

Unless stipulated otherwise hereinafter, or unless the context indicates otherwise, the general rules for all qualifications shall also apply to Doctors' degrees.

ADMISSION REQUIREMENTS
- Holders of a Master's degree from the University or the holders of other qualifications approved by Senate may be accepted as candidates for the relevant degree.

- Students who have passed the examinations on the grounds of which they will be awarded the relevant degree by a University or on the grounds on which the required status may later be granted to them, or who have in any other manner (e.g. RPL) attained a level of competence which in Senate's opinion is adequate for the purpose of postgraduate studies or research at the required level, may be accepted as students for the relevant degree.

- Apart from the general admission requirements, a student may be required to fulfil further requirements, e.g. supplementary work or an oral/written examination as pre-scribed by Senate.

- Applicants wishing to pursue either a master's by dissertation or doctoral studies are required, as part of the application process, to provide a broad outline of proposed area of research as per each entities postgraduate prospectus or research application requirements.

- Applicants wishing to pursue a coursework master's will receive guidance from the assigned postgraduate programme co-ordinator with regard to the choice of a research topic to fulfil the requirements for the treatise component of their chosen degree programme.

- An application for a postgraduate qualification or programme may, after selection by the Head of Department or Director of School, in consultation with the relevant Postgraduate Studies Coordinator, and ratification by the Faculty Postgraduate Studies Committee, be processed by the Postgraduate Admissions Office.

STATUTORY AND OTHER REQUIREMENTS

- An application for registration as a student for a postgraduate research qualification may, after approval by the Head of Department or Director of School, be processed by prospective student via the online registration system.
- Where applicable, a candidate must submit a research proposal for approval by the Faculty Postgraduate Studies Committee within the prescribed minimum period as stipulated in the postgraduate research policy. Once such approval has been obtained, an official research project is registered by the Manager: Faculty Administration.
- Unless the Faculty Postgraduate Studies Committee decides otherwise, no candidate will be allowed to continue with his/her studies if a research project has not been registered within the prescribed minimum period as stipulated in the postgraduate research policy.

DURATION
The qualification shall extend over a minimum of two years and a maximum of six years of full-time or part-time study.
